

AB GERMA®

VACUUM MATTRESS
AIO BLUE LINE

PRODUCT SHEET

Germa Blue Line Vacuum Mattresses:

The Blue Line is Germa's Low-price range of Vacuum Mattresses. It is based on our AIO concept but with a less intricate inner bag, which requires a little adjustment of the granules before use. The lower price and less complex inner bag does still not tamper on Germa's high quality and long-life expectancy.

The intended use is as a Vacuum Mattress but to save storage space the mattress can lie on the stretcher at all times, acting as a stretcher mattress. If vacuum immobilisation is needed, the vacuum mattress is integrated in the stretcher mattress and is ready for use immediately.

PRODUCT SPECIFICATIONS

Approved according to European Standard
EN 1865 and EN 1789

BENEFITS

Made to correspondent to EN 1789 and 1865

One-piece back, providing the patient with even spine support. Also allows preliminary X-ray diagnostics, direct in to x-ray no extra handling of patient.

Gives rescuers quick handling and excellent immobilisation for the patient.

Deliver consistent and rigid support to the patient
Safe and convenient immobilisation.

Handles feature an ergonomic grip, making patient lifts as comfortable as possible for rescuers.
Handles are reinforced so a patient can be lifted in a patient lifting device.

Handles fixed to the bottom of mattress, maintain immobilisation when lifting patient.

Robust welding—fully welded without any open seams or textiles, making hygienic cleaning of the mattress easy.

Valve with special designed hole, ensuring almost all suction devices fit directly into the valve, no adapters are needed. Reverse air lock system, no closing of valve at stressful site. Made from plastic makes it ideal for X-ray.

Safety belt fixation close to the mattress, safe and comfortable for patient.

PVC coated fabric makes it easy to clean and disinfect with most common chemicals.

Outer bag is made of flame retardant PVC-coated fabric. It is flexible making it easy to mould the mattress around the patient.

VACUUM MATTRESS AIO BLUE LINE

High load capacity 250 kg, safe to handle bariatric patients.

Two different closing mechanisms on the straps, either Hooks & Loops or plastic buckle, allowing the user to choose according to preference.

Repair Kit easy to use for effective repair, no return needed.

High quality footrest aluminium vacuum pump evacuate with more than – 700 hpa, quick and time saving.
