Body Bag MOD

## BENEFITS

## BODY BAG MOD

Welded seams, 100% tight which guarantees it will not leak.

The PVC resists wear, acid, formaldehyd, bloodstains and large fluctuations in temperature.

It will not leak, detoriate or mold, it will keep the dignity of the deceased. Very high quality product.

The Body Bag MOD consists of an outer shell made of hard-wearing PVC coated fabric.

Has a document pocket for easier identification and tracking.

Can be opened fully for easy access.

Minimizing the risk of contamination of the surroundings.
