BENEFITS

EASY TRANSFER MATTRESS

Made to correspondent to EN 1789 and EN 1865
MDR 2017/745 Class 1 Medical device

The PVC fabric is made strong and durable for long
and hard use.

The Easy Transfer mattress has been
designed to fit most common stretchers
available on the market.

High level of patient comfort due to the
V-shaped foam plus the Sensus memory
foam.

5 handles on each side, allow paramedics
to easy lift, carry and slide the mattress with
patient on it.

For easier patient access during transport the
handle part can be folded under the mattress
on the stretcher.

Sliding surface on the reverse of fiberglass
material, reducing friction and allow sliding of
the mattress e.g. on the floor/ground or from
stretcher to stretcher or from stretcher to
hospital bed.

It is very easy to apply the stretcher's
restraint system due to the easy access slits
at the shoulder level on the Easy Transfer
mattress.

For patient safety the mattress should be
secured on the stretcher with the stretchers
restraint system.

It is hygienic as it is fully welded and easy to
clean with most common disinfectants.
