# BACKPACK FOR EASYFIX VACUUM SPLINTS

# PRODUCT SHEET

We listened to our costumers headaches and decided to do something about it.

Hence, the new backpack for our EasyFix Vacuum Splints was born. The new 3in1 bag is much easier to pack as it opens like a suitcase, now all you have to do is open the "lid" of the bag and easily place the Vacuum Splints in the bag and simply close the "lid" again, all ready to go!

To make things even better, with our new vacuum splint bag you have 3 options how you carry the bag, all depending on your own preferences and the situation at hand.

You can carry it by:

1. Either from the top handle
2. Or from the side handle
3. Or as a backpack

Germa once again delivers features that benefit the paramedics in their work.

## BACKPACK FOR EASYFIX VACUUM SPLINTS
